INDEX

NAMES OF CONTRIBUTORS ARE PRINTED IN SMALL CAPITALS

Aphid Wings, Determination and Differentiation, A. F. SHULL, 170
Archatlantis, P. J. DARLINGTON, JR., 521

BALDUF, W. V., Entomophagy among Lepidoptera, 358
Bats, Reproduction and Splenic Adaptation of, C. A. EVANS, 480
BRANDWEIN, P. F., Culture of Pectinatella magnifica Leidy, 94
BRAUN, W., Environmental Factors and Similar Phenotypes, 189
BRIGGS, F. N., Inheritance of Resistance to Mildew, 34; Crop Improvement, 285
BROOKS, S. C., Chemical Nature of the Plasma Membrane, 124
BURGER, J. W., Thyroid and Adrenal Cortex of Sturnus vulgaris, 562
BURNS, R. K., JR., Sex Differentiation, 207

Campeloma rufum, Nervous System in, A. E. SAVAGE, 160
CHAMBERS, R., Physical State of Protoplasm, 141
Chromosome Behavior, C. W. METZ, 485
Chromosomes, and Genes, Structure of, G. D. SNELL, 84; Sex, E. C. JEFFREY and E. J. HAERTL, 473, Structure of, 477
Craspedacusta, Behavior of, L. J. MILNE, 464
Crop Improvement, F. N. BRIGGS, 285
CUNNINGHAM, B., and E. HUENE, Water Absorption by Reptile Eggs, 380

DARLINGTON, P. J., JR., Was There an Archatlantis?, 521
DAVID, L. T., Eye Color in Habrobracon, 574
Drosophila, Males, Sterility in, C. STERN and E. HADORN, 42; Melanogaster, Delayed Killing of, E. V. ENZMANN and C. P. HASKINS, 184; and Sex Differentiation, J. T. PATTERSON, 193; Melanogaster, Attached-X Chromosomes in, L. V. MORGAN, 434

Entomophagy, among Lepidoptera, W. V. BALDUF, 358
ENZMANN, E. V., and C. P. HASKINS, Delayed Killing of Drosophila melanogaster, 184
EPHRUSSI, B., Physiology of Gene Action, 5
EPLING, C., Scylla, Charybdis and Darwin, 547
EVANS, C. A., Reproduction and Splenic Adaptation of Hibernating Bats, 480

GATES, R. R., Species Concept, 340
Gene, Action, Physiology of, B. EPHRUSSI, 5; Starvation, D. H. THOMPSON, 53; Effects in Cytoplasm in Nuclear Cycle, C. STERN, 350
GOLDSCHMIDT, R., Intersexuality and Development, 228; Adaptation of Lymantria dispar, 385
GOODALE, H. D., Improvement of Live Stock, 243
Grasses, Silicon Content of, A. R. PATTON, 387
GUNTER, G., Marine Fish on Louisiana Coast, 77
Guppyi, Sex-Linked Color Factors in, C. P. HASKINS and J. P. DRUZBA, 571

Habrobracon, Eye Color in, L. T. DAVID, 574; Production of Sterile Eggs in, E. M. SPOTKOV, 576
HALL, E. R., Variation among Insular Mammals, 453
HARMAN, M. T., and A. ALSOP, Ossification of Foot-Bones, 59
HASKINS, C. P., and J. P. DRUZBA, Sex-Linked Color Factors in the Guppyi, 571
HUTT, F. B., Poultry Improvement, 268
HUXLEY, J. S., Sexual Selection, 416

Insular Mammals, Variation among, E. R. HALL, 453
Intersexuality and Development, R. GOLDSCHMIDT, 228
Inversions, Heterosis and Recombination, Interrelations of, A. H. STURTEVANT and K. MATHER, 447

JEFFREY, E. C., and E. J. HAERTL, Sex Chromosomes, 473; Structure of Chromosomes, 477

KOENIG, F. O., Evolution of Mechanical Ideas in Physics and Chemistry, 304

LILLIE, R. S., Organizing Action, 389
Live Stock, Improvement of, H. D. GOODALE, 243
Lymantria dispar, Adaptation of, R. GOLDSCHMIDT, 385

Marine Fish on Louisiana Coast, G. GUNTER, 77
Mechanical Ideas, Evolution of, in Ancient Greek Thought, H. B. TORREY, 293; in Physics and Chemistry, F. O. KOENIG, 304; in Biology, W. E. RITTER, 315; in Scientific Thought, E. W. STRONG, 324
METZ, C. W., Chromosome Behavior, 485
Mildew, Inheritance of Resistance to, F. N. BRIGGS, 34
MILNE, L. J., Behavior of Craspedacusta, 464
MORGAN, L. V., Attached-X Chromosomes in Drosophila melanogaster, 434

Naturalists, American Society of, 97–159; Handlist of American, P. H. OEHSER, 534

OEHSER, P. H., Handlist of American Naturalists, 534
Organization Action, R. S. LILLIE, 389
Ossification of Foot-Bones, M. T. HARMAN and A. ALSOP, 59

PARK, T., Tribolium confusum Populations, 24
PATTERSON, J. T., Drosophila and Sex Differentiation, 193
PATTON, A. R., Silicon Content of Grasses, 387
Pectinatella magnifica Leidy, Culture of, P. F. BRANDWEIN, 94
Phenotypes, Environmental Factors and Similar, W. BRAUN, 189
Photosensitization, D. H. TENNENT, 97
Plasma Membrane, Chemical Nature of, S. C. BROOKS, 124
Poultry Improvement, F. G. HUTT, 268
Protoplasm, Nature of, Reproduction of Virus Proteins, W. M. STANLEY, 110; Chemical Nature of the Plasma Membrane, S. C. BROOKS, 124; Physical State of, R. CHAMBERS, 141

Reptile Eggs, Water Absorption by, B. CUNNINGHAM and E. HUENE, 380
RITTER, W. E., Mechanical Ideas in Biology, 315

SANDNES, G. C., and W. LANDAUER, Sex Ratio, 180
SAVAGE, A. E., Nervous System in Campeloma rufum, 160
Scylla, Charybdis and Darwin, C. EPLING, 547
Sex Ratio, G. C. SANDNES and W. LANDAUER, 180; Differentiation, J. T. PATTERSON, 193, R. K. BURNS, JR., 207
Sexual Selection, J. S. HUXLEY, 416
SHULL, A. F., Determination and Differentiation in Aphid Wings, 170
SNELL, G. D., Structure of Chromosomes and Genes, 84
Species Concept, R. R. GATES, 340
SPOTKOV, E. M., Production of Sterile Eggs in Habrobracon, 576
STANLEY, W. M., Reproduction of Virus Proteins, 110
STERN, C., Effects of Genes in Cytoplasm in Nuclear Cycle, 350; and E. HADORN, Sterility in Drosophila Males, 42
STRONG, E. W., Mechanical Ideas in Scientific Thought, 324
STURTEVANT, A. H., and K. MATHER, Interrelations of Inversions, Heterosis and Recombination, 447

TENNENT, D. H., Photosensitization, 97
THOMPSON, D. H., Gene Starvation, 53
Thyroid and Adrenal Cortex of Sturnus vulgaris, J. W. BURGER, 562
TORREY, H. B., Evolution of Mechanical Ideas in Ancient Greek Thought, 293
Tribolium confusum Populations, T. PARK, 24

Virus Proteins, Reproduction of, W. M. STANLEY, 110
